

General Information: Our premium mulch is designed to provide growers and landscapers with a reliable, sustainable solution for soil coverage and crop protection. Made from 100% natural materials, it enhances soil moisture retention, regulates temperature, and helps control weed growth while gradually enriching the soil as it decomposes. With its consistent quality and easy application, our mulch is an effective way to improve plant health, reduce maintenance, and support environmentally responsible cultivation practices.

Specifications:

Parameter	Value
Material	100% Date Palm Mulch
Weight of bale	22.5 ± 1 kg
Dimensions of bale	30*55*110 cm
Particle Size	25 – 35 mm
Moisture content	10 – 15 %
Bulck density	40 – 50 kg/m ³
pH	5.5 – 6.5
EC	0.5 – 0.7 mS/cm

*Some parameters may be changed upon request of the customer.
